

Additional file 3: Stem-loop structures and conserved motifs of putative control regions of octocorals studied.

(A) Predicted stem-loop structures of the four IGRs

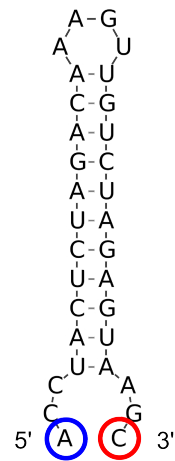

Sinularia cf. cruciata
COII-COI IGR

Sinularia picularis (NC_018379)
COII-COI IGR

Pseudopterogorgia bipinnata (NC_008157)
COII-COI IGR

Corallium rubrum (NC_022864)
ND6-COI IGR

(B) Graphical representation of conserved motif of aligned putative control region (3' to 5') from octocoral studied here, generated using GLAM2 from the MEME Suite 4.11.2 (meme-suite.org/)
