

Table e1: Motor speech characterization per participant

Explanation to file and variable labels

File:

The table contains information on the presence, type, and severity of a motor speech disorder (MSD) for each of the 160 included participants (37 lvPPA, 74 nfvPPA, 49 svPPA).

Variable labels:

- PPA Subtype: PPA subtype classification
 - lvPPA = logopenic variant PPA
 - nfvPPA = nonfluent variant PPA
 - svPPA = semantic variant PPA

- MSD Yes/No: presence of a motor speech disorder (MSD)
 - Yes = MSD is present
 - No = MSD is not present

- MSD Syndrome: type of the MSD syndrome

- MSD Severity: severity of the MSD; 0-4 (0=most severe; 4=unimpaired)
